NOTICE.

This is to certify that on or about the 15th
day of June, 1887, I took possession of and
located as a home that certain unsurveyed
Public Land of the United States, designed
as follows: To wit: B. and N. lines, com-
mencing at a pile of stones, or monument about
300 yards south of the rim of the Grand Can-
yon of the Colorado in the Cocoon Forest, and
near the trail known as the "Hance
Trail" leads down into the Grand Canyon
aforesaid, and running thence west one mile,
on a line marked out by blazes or scalps on
trees to another monument of stones, thence
south $\frac{1}{4}$ of a mile by a line designed as
above to a 3rd monument, thence east one
mile by another line designed as above to
another, a 4th monument of stones, and thence
north to a place of beginning by a line de-
signed as above. All of which I hereby declare
my intention to claim as a home under the
public land laws of the United States.

Witness to above facts,

STOCK NOTES.

Chicago has quarantined against
New York on account of cattle dis-
ease.

Late rains in almost all sections
have given a plentiful supply of grass
on the ranges.

Don Solomon Luna, of New Mexi-
co, will clip about 90,000 pounds of
wool this season.

The cattle interests in northern
Arizona are strong enough and pros-
perous enough to trust in itself.

The Mogollon stock association
will hold their annual meeting at
Flagstaff, on Tuesday, July 5th.

Over production of beef is all non-
sense. Cattle will be a better in-
vestment in the future than it ever
has been.

The governor of Pennsylvania has
signed a bill for the punishment of
false pretenses in obtaining registra-
tion of cattle and other animals.

I. N. Town, of the Santa Fe com-
pany at Nogales, Arizona, has pur-
chased 100 head of excellent Short-
horn-Devon bulls for range purposes.

W. H. H. Llewellyn has been lo-
cated at Holbrook, during the past
week, looking after the cattle traf-
fic business for the Santa Fe railroad
company.

Ranches and ranges in northern
Arizona will increase three fold in
value in a very short time. There are
no better paying investments than
dirt and cattle.

Manuel Candelario, of Holbrook,
sold 20,000 pounds of wool last week.

Good reports continue to come in
from all the ranges here. The cattle
are in a better condition than they
have been for years.

The Cattle Trust says we'll pay
you one-fourth in cash of the total
valuation of your land and cattle,
and hereafter will relieve you of all
management of said property. You
put your trust in us, and we may be
able to pay you 100 cents on the dol-
lar, if the scheme works well.

Customer—Give me another steak
like the last one I got here. Butcher
—I don't remember the particular
steak, but this is a nice tender piece.
Customer—Who wants a tender
piece? Butcher—I thought every-
body liked that kind. Customer—
You must think I intend to eat it.
It's a dog; but I am after. The other
steak is about worn out.—Ex.

Uncle Josh Bailey has gone into
the sheep business, having purchased
2,000 head from Mr. Hildreth, of
Texas. Josh says it is all a mistake
that sheep and cattle will not run to-
gether, anyhow he is going to experi-
ment and if the cattle will not remain
they can go and no loss to him, as
they belong to others.—Clifton Clar-
ion.

Kellogg & Co., the New York cat-
tle-salesman, so the Farmers Home
Journal says, row claim that in Jer-
seys "blood no longer sells high un-
less the animal indicates by individ-
ual quality that the blood has sold."
Then indeed, it has come to pass that
no longer can traders and skinner
expect long prices for the worthless
stuff, meritorious only in pedigree.

The present year promises to be
one of the most favorable for the cat-
tle interests for years. The early
summer rains have generally been
bountiful on all portions of the range.
Cattle are thriving and the number
of calves already dropped exceeds
the expectations of the most visionary
stockman. Splendid beef will be
ready for the market from the south-
western range early in the fall. The
discouraging features that have been
common to many parts of the range
the past twelve months are relieved
by the bright prospects everywhere in
view. The evils that have troubled
the range man in the conduct of his
business are departing. Plenty of
grass, an abundance of calves, and
an unusually heavy beef crop are as-
sured factors of the business for the
year 1887.—Las Vegas Stockgrower.

HORSE TALK.
There are 9,500,000 head of horses
in the United States.

Forty street car horses in Colum-
bus, Ohio, are laid up with pink eye
and several have died.

The crack 3-year old on the eastern
turn turf this season is Hanover, a
member of the Dwyer stable.

The popularity of the Wilkes blood
does not wane and the principal sta-
tions of that blood are in greater de-
mand than ever.

Enjoy Life.
What a truly beautiful world we live
in! Nature gives us grandeur of moun-
tains, glens and oceans, and the use of
means of enjoyment. We can de-
sire no better when in perfect health
but how often do the majority of peo-
ple feel like giving it up disheartened
discouraged and worn out with disease
when there is no occasion for this feel-
ing, as every sufferer can easily obtain
satisfactory proof, that *Green's August
Flower*, will make them free from dis-
ease, as when born. Dyspepsia and
Liver Complaint are the direct causes
of seventy-five per cent. of such mala-
dies as Biliousness, Indigestion, Sick
Headache, Constipation, Nervous Pro-
stration, Dizziness of the Head, Palpi-
tation of the Heart, and other distress-
ing symptoms. Three doses of *August
Flower* will prove its wonderful effect.
Sample bottles, 10 cents. Try it.

SUNDAY SMILES.

Sensible people like the Indians
well enough—without any reserva-
tion.

The democratic party in New York
state has all the Hills that flesh is
heir to.

Sunday school children when asked
where bad men go to? will soon be
answering, Canada.

The only difference between a gun
and a domestic is, that the gun never
kicks until it goes off.

"I'm traveling for a bank" he re-
marked, and when asked if it was
good pay, replied, "Yes, if I manage
to get across the Canadian line."

Professor Riley, the naturalist, says
that a goose lives for fifty years, but
he omits to add that it then becomes
a boarding house delicacy.

Coffee and tea, as is well known,
Are apt to make their faces brown,
And so the girls, I'm pleased to state,
Have got to using chalk-o'-late.

A lady asked a tramp if she could
assist him by mending his clothes.
"Yes mum," said he, "I have a but-
ton and if you will sew a shirt onto
it you will oblige me."

Of the two, it is easier to become a
good base ball player than to be el-
ected president of the United States,
and the base ball player has some ad-
vantages, he gets about the same sal-
ary, has a good deal more fun, gets
very little abuse and is quite as popu-
lar.

"What's the trouble now?" asked a
nervous passenger on the A. & P.
railroad. "Oh nothing," said the
conductor trying to get away, "Five
freight ahead of us got off the track
and run into the depot knocking it
clear out of time, and our engineer
cant tell where the town site is."

In the report of an address by a
Miss Barnham at the recent con-
vention of the Woman's Christian Ten-
perance Union, the young lady says:
"Chivalry which has fled from all
other quarters has taken refuge in the
newspaper offices." Although she is
unknown in the far west, we believe
this young lady to be the sweetest
and brightest representative of her
sex in the whole country.
